# **GCCS-A Extranet**

## **Robin Lawson (FCBS)**

**10 September 2002**

## CURRENT EXTRANET

- Modeled solely on Contract Requirements—CDRLs
- Pilot for “less-paper,” workflow process improvement initiative
- Secure / access controlled by managers
- Uses automated workflow components
- Contractor posts own deliveries
- Deliveries available to community in “real-time”

# SHORTCOMINGS

- Difficult for users to navigate
- No global search feature
- Organized by contract requirements vs. user “communities”
- Executive & acquisition info not covered
- Site-specific info scattered
- No context-sensitive user help

## **IMPROVEMENTS MADE**

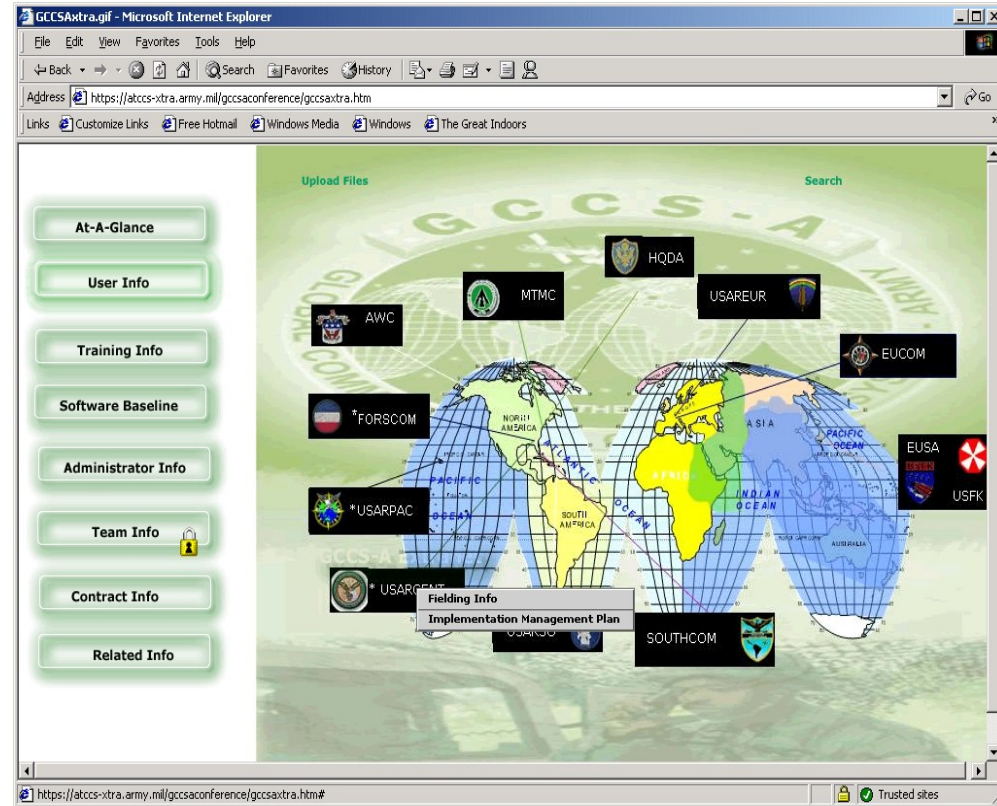

- **Server platform migrated to Windows 2000 in DEC 01**
- **New server accommodates much more traffic/faster/more flexible**
- **Newest technology services available thru IIS 5**
- **Additional online forms and open access to public info**
- **In step with AKO and PEO C3T knowledge management infrastructure and direction**

# NEAR TERM EXTRANET

- Organized chiefly by user “communities” and software blocks
- Site specific info quickly available
- Additional training info and options
- User help options and online forms
- Administrator Library/help
- Acquisition documents available to GCCS-A executives
- Collaboration tools centralized and accessible from single point
- New Global Search feature
- Collaboration tools available to Team members
